A STAFF AGENCY WITH A DIFFERENCE

As the year draws to a close, ensure your Private Household and Corporate staff are providing you with 7* service to take you into the New Year, says The Organisers.

It is not always easy to know where to source premium members of staff. Whether you need a Michelin trained Chef to join your Mega Yacht, an exemplary Governess to tutor your children for their entrance exams, a butler for your home in Monaco or an Operations Manager for your Palace, The Organisers Staff & Recruitment agency have an outstanding reputation for providing a bespoke recruitment service.

The Organisers Staff & Recruitment agency was born out of our world-renowned Concierge & Lifestyle Management Company established in 1998 to work for UHNW individuals and their businesses. This history has provided our team with a unique and invaluable insight into all aspects of our clients' lives and it is this innate instinct that truly sets us apart as an agency. We know our Middle Eastern clients' exacting requirements and we work tirelessly to ensure they are absolutely delighted with our 7* service.

Whether in the UK for Ramadan, on holiday in Morocco or working at home, our international candidates are among the best in the world and their wealth of experience in similar roles mean they are fully conversant with our clients' local customs. Our Operations Managers know how to greet visiting Royalty, organise lavish events and manage the whole of the household. They ensure that everything runs smoothly and without fuss, and that the little touches that are so important, are not missed.

Our House Managers know how to serve Qahwa with cardamom or saffron to esteemed guests and will ensure that the finest Medjool dates, crackers and sweets are offered as accompaniments.

Our Michelin trained Chefs prepare a mouth-watering selection of international dishes from French Haute Cuisine to Fusion to Sushi as well as traditional dishes such as Kabsa and Saleeg, Fattet Hummus and Samboosak.

The Organisers offer an exceptional and seamless service during your stay in the UK so you are able to make the most of your precious time in London stress-free. We can arrange and manage staff for every element of your stay. A motorcade of deluxe chauffeured vehicles can be on call to whisk you and your family from your private jet to your London residence, to Bond Street shopping and to visit the finest restaurants and cultural experiences. If you choose to travel without your own staff, we can arrange an entire team to care for your family in London including trained Silver Service Butlers and Security personnel.

Childcare and schooling are a priority for our clients and we have the best candidates to help your child develop and succeed at the highest levels. Our Norland trained Nannies have a reputation for being the best in the world. Hailing from the London-based college steeped in over 120 years of history, they provide expert training and care for your children. Whether your child is preparing for entry into private school or an Oxbridge university, we can source a gifted British Tutor to ensure your child reaches their full academic potential.

All our candidates have highly detailed reference verification checks performed by

one of our Senior Consultants including a full background check and relevant security DBS checks. Our thorough vetting system is second to none and is one of the aspects that make us the best in class.

"If an agency sends you a large amount of CVs, it is important to question their suitability for the role, for your household/business and for your family," explains Katie Shapley, Managing Director of The Organisers. "We will shortlist only the most impressive candidates of the highest calibre to present to our clients."

Our 360-degree bespoke service means that we are uniquely positioned to offer assistance with candidates' travel, accommodation, visa applications and training. The Organisers are available 24/7 all-year-round and we pride ourselves on being an essential part of our clients' lives.
